Description

Please see attached the CRFs for TB Screening for child and caregiver. This will occur at enrollment, quarterly calls, and follow-up in person visits. Please also see attached the TB Referral Guidelines. These will guide the functionality to trigger the TB Referral CRFs (one for children and one for caregivers). Lastly, please see attached the TB referral CRFs.

The CRF timepoints includes deployment and references to these new CRFs.

For both Maternal and Infant- The TB referral CRF should be triggered if they meet TB referral criteria.

🔲 Updated by **Boitshepo Phale 4 months** ago	**#7**

On the caregiver crf;
1. add a foot note for question 5; "night sweats is defined as waking up with your bed clothing soaked enough to require the bed to be changed"
2. Q21-23 is missing as per spec form

🔲 Updated by **Martha Ngwaca 4 months** ago	**#8**

On the infant Side:
To make discuss some changes with Sara, then Nimrod to reprogram the CRFs (both TB screening and TB Referral CRF)as per spec form.

TB referral outcomes not tested because the validations are not working at all at TB referral CRF.

Infant side:

TB Screening CRF

1. UNKNOWN responses missing in most questions (see spec form dated 8Nov23)

2. @ Q.11 please add (only for children

3. Q.13 if response is 'NO', should trigger the TB Referral CRF

TB Referral CRF

1. @ Q.4- correct reasons for referral (see spec form).

UAT Feedback

Child/Infant TB screening CRF;
1. Allow multiple selection at Q15, which is Q13 on spec form

2. Add validation, if Yes at Q24 of the CRF, Q25 is required

3. IF No to Q24, Q26 is required

4. TB referral CRF should not be required, should only be triggered if there a is positive screening

Infant side

Tested with PID 0683-0-10,
1. Unknown option still missing for most questions- see spec form_8Nov23
2. Add this validation on the CRF "Q9 is only for children ≤ 12 Years of age" which is Q11 on the CRF
3. Kindly attend to the yellow screen, popped up when trying to save the form(To test remaining questions after this yellow screen is resolved)
4. Include 'None' at Q15
