

Protocol Changes Test Server (PID 306-2-10, consented on v1) – I was NOT able to add the continuation visit when selecting the status “New” for Q3, I received the error below. The continuation visit will only save if I select “In Progress”, “Incomplete”, “Done” or “Cancelled”. However, the drop-down list for Q4 only shows list of infant visits, which is correct – **ISSUE IS NOT RESOLVED ON “PROTOCOL CHANGES TEST SERVER” FOR INFANT PID CONSENTED ON V1.**

Redmine Test Server (PID 413-4-10, consented on v1) – The drop-down list for Q4 contains both maternal and infant visits. Also, the appointment will only save if I select “In Progress”, “Incomplete”, or “Done” for Q3. But then afterwards, when I return to the infant’s dashboard, the status of the continuation appt is “New”. - **ISSUE IS NOT RESOLVED ON “REDMINE TEST SERVER” FOR INFANT PID CONSENTED ON V1.**
