Description

For the Maternal Interim IDCC Data form, on all VL variables please organize the question so that it is in two parts:

a. Is the VL value "=", "<", or ">"? (Then put the three choices as "=", "<", or ">")

b. Value of VL ____

Logic for this:

If "=" is chosen for #a above, then the value of VL should be between 400 and 750,000 (inclusive of these numbers)

If "<" is chosen for #a above, then the value of VL should default to 400.

If ">" is chosen for #a above, then the value of VL should default to 750,000

See updated Interim IDCC Data form with 2019.07.09 date on Tshilo Dikotla Dropbox.
