<b>Description</b>			
<p>Hi Leslie,</p> <p>I ran all of the CSV reports in the EDC admin for Tshilo Dikotla today (6/21).</p> <p>Below is a list of reports that are currently missing the "subject_identifier" field:</p> <ol style="list-style-type: none"><li>1. Maternal ARV in this preg</li><li>2. Maternal ARV Lifetime History</li><li>3. Maternal Clinical Measurements 1</li><li>4. Maternal Clinical Measurements 2</li><li>5. Maternal Contraception</li><li>6. Maternal Demographics</li><li>7. Maternal Obstetrical History</li><li>8. Maternal Off-study</li><li>9. Maternal Post Partum: Depression</li><li>10. Maternal Substance Use During Pregnancy</li><li>11. Maternal Ultrasound Initials</li><li>12. Rapid Test Result</li><li>13. Substance Use Prior to Pregnancy</li></ol> <p>Below is a list of reports that are currently missing the "report_datetime" field:</p> <ol style="list-style-type: none"><li>1. Maternal ARV</li><li>2. Maternal Consents</li><li>3. Infant NVP or AZT Proph: Mods</li><li>4. Aliquot</li></ol> <p>Both variables are important, because we need to run queries to determine areas for data cleanup. Please assist.</p> <p>Thanks,</p> <p>Justine</p>			

#### History

##### #1 - 22/06/2017 03:31 - Justine Legbedze

- File EDC Admin Forms\_2017.06.21.xlsx added

##### #2 - 26/06/2017 20:33 - Leslie Kapaletswe

Maternal Locator cannot be added as CSV, there's participant contact information.

Consent\_datetime on consent CSV represents report\_datetime,

For missing subject\_identifier that occurs, now and then, I'm not sure yet what causes it but I have shared it with the team to help me figure it out.

For the columns with the missing headers, I'm still working on the problem, I will update the server once the problem is fixed.

Hi Leslie,

I noticed that this ticket was marked as resolved, however, I ran 2 of the CSV reports and they still do not contain subject\_identifiers. I read your comments above - do you have an estimated time of completion for resolving these issues, especially the reports that are missing the subject\_identifiers? We cannot run data queries without this field. Please let me know.

Thanks,  
Justine
