- Status changed from Resolved to Feedback

The change of wording is fine at Q5 is fine and the validation (not required to re-enter the date keyed at last visit) is working however the autofill date is not working. Also when entering the date again the yellow screen pops out instead of TELLING THAT THE DATE IS ALREADY CAPTURED AT LAST VISIT. The same yellow screen also comes out if the future date is entered rather than showing alert message that DO NOT ENTER FUTURE DATE.

QUESTION EDITED WELL

VALIDATION ON FUTURE DATE WORKS WELL, NO YELLOW SCREENS

HOWEVER:

**Can you create a rule such that if this field has already been completed in a previous study visit on this form, that it will autofill or not require you to complete it again?**

THIS PART DOES NOT WELL. Solids was answered as yes and date provided at 2020 visit. However, at 2060 visit, it doesn't autofill, or it requires a date still. Funny enough, we were able to save form without adding date. See attached pdf.

ALSO, I would be adding a new redmine about inability to edit Q5 once a date is provided

**#6 - 16/11/2018 08:45 - Keolebogile Nicholas Mmasa**

- Status changed from *Resolved* to *Feedback*

Edit the error message to "solids" as opposed to "formula on the validation::

**Can you create a rule such that if this field has already been completed in a previous study visit on this form, that it will autofill or not require you to complete it again?**

also fix validation number 2, now its broken:

**Please create a validation such that this date cannot be a date in the future from the date the form is being completed.**

**#7 - 19/11/2018 16:42 - Keolebogile Nicholas Mmasa**

- Status changed from *Feedback* to *Closed*

question 5 now validating of visit date.Future date from visit date throws an error message.issue closed
