<b>Description</b>			
Hi DMC,			
In reviewing the "Maternal Diagnoses" CSV file from the TD batch export, I noticed that the file is missing 2 variables that are captured on the CRF.			
1. Q4 (Have any of the following diagnoses occurred since last visit?) --> variable name: diagnoses			
2. Q7 (List any new WHO Stage III/IV diagnoses that are not reported in the question above) --> variable name: who			
Could you please add these variables to the file? I've attached the CSV file and CRF for your reference.			
Thanks,			
Justine			

#### History

##### #1 - 05/05/2021 15:49 - Itumeleng Mosweu

- Status changed from New to In Progress

##### #2 - 06/05/2021 08:20 - Itumeleng Mosweu

- Status changed from In Progress to Resolved

##### #3 - 28/05/2021 18:05 - Justine Legbedze

- Status changed from Resolved to Closed

Ran new batch from EDC test server and it includes new CSV files for maternal diagnoses:

1. td\_maternal\_maternaldiagnoses\_20210510230745
2. td\_maternal\_maternaldiagnoses\_merged\_diagnoses\_20210510232753
3. td\_maternal\_maternaldiagnoses\_merged\_who\_20210510232900

Closing ticket. Kindly implement on the live server.
