<b>Description</b>			
Hi DMC,			
In reviewing the "Maternal Postpartum F/U" CSV file from the TD batch export, I noticed that the file is missing 2 variables that are captured on the CRF.			
1. Q4 (Have any of the following diagnoses occurred since last visit?) --> variable name: diagnoses			
2. Q11 (List any new WHO Stage III/IV diagnoses that are not reported in the question above) --> variable name: who			
Could you please add these variables to the file? I've attached the CSV file and CRF for your reference.			
Thanks, Justine
