- Status changed from Resolved to Feedback

validation defined above is fine, however, when the result of most recent VL test at Q9 is not answered though it is required in a scenario, EDC shows yellow screen instead of error message to alert that the field is required.

SEE ATTACHED YELLOW SCREEN

**#5 - 17/08/2021 13:44 - Moses Chawawa**

- Status changed from Feedback to Resolved

**#6 - 18/08/2021 11:55 - Samuel Wilson Kgole**

- Status changed from Resolved to Closed

Passed testing.

**#7 - 18/08/2021 13:12 - Gosego Masasa**

Issue re-opened, Moses can you make it please at Q9, to allow other this character < if not detectable...The viral load results on participants records usually comes as <400, BUT also kindly note that we still see some results which have only numbers with no characters, so kindly make it to be open to accept even results with no characters.

Otherwise , all other scenarios requested before have been resolved, tested and are working fine.

**#8 - 18/08/2021 14:16 - Itumeleng Mosweu**

- Status changed from Closed to Feedback

**#9 - 24/08/2021 12:48 - Moses Chawawa**

- Status changed from Feedback to Resolved

- File Screenshot 2021-08-25 at 16.04.45.png added

- Status changed from Resolved to Feedback

throws a yellow screen when entering any other character except number at Q9, kindly see the above required validation to add. wanted to enter <400, but the following yellow screen popped up.

**#11 - 25/08/2021 16:44 - Moses Chawawa**

- Status changed from Feedback to Resolved

Server has been update with a fix

**#12 - 26/08/2021 10:33 - Samuel Wilson Kgole**

- Status changed from Resolved to Closed

Testing passed, used variable <30, <400, 0 when viral load is undetectable.

**#14 - 22/08/2022 16:55 - Moses Chawawa**

- Due date changed from 11/08/2021 to 25/08/2021
