Target version:		Spent time:	0.00 hour
Description			
Hello, kindly assist with the above, we wanted to key death report for maternal PID 0257-3, but the form is not triggered. Kindly make it to trigger once the survival status(Q12) of the visit report is "dead", do this on the infant side as well.

- Status changed from Resolved to Feedback

death report was not triggered during testing but an off study. The sequence is, complete **DEATH REPORT** then **OFF STUDY**. This was discussed with Coulson before.

#10 - 02/12/2021 10:03 - Samuel Wilson Kgole

- Status changed from Resolved to Feedback

death report is now triggered however we are forbidden to open the form. please give us permission to do so.

#11 - 02/12/2021 11:34 - Samuel Wilson Kgole

Death report form can be opened but EDC does not give us off study form after.

Please address that (Death report followed by off study form). Similarly, apply this to infants, death form is not triggered but only an off study reflects.

- Status changed from Resolved to Feedback

1. death report saves well for the mother but YELLOW PAGE when saving off study form

2. when saving death report for the infants, we see this error message: **Please complete Caregiver Consent form before proceeding**

#16 - 06/12/2021 16:52 - moffat motlhanka
