<b>Description</b>			
Please add a column indicating HIV exposure status for children for all child csv exports. Please also add a column indicating HIV status for caregivers in all caregiver csv exports.			

#### History

##### #1 - 22/02/2022 17:16 - Itumeleng Mosweu

- Due date set to 24/02/2022

##### #2 - 01/03/2022 17:41 - Itumeleng Mosweu

- Status changed from New to Resolved

##### #3 - 04/03/2022 11:22 - Sara Schenkel

- Status changed from Resolved to Feedback

- Estimated time set to 1.00

The columns/variables are off a few Caregivers CRFs I reviewed:

- History of TB in pregnant women (for example, all column titles and data beneath are one to the right)
- COVID 19 for caregivers -- the previous study is listed twice and all other column data are pushed to the right

For the children CRFs - I do not see a column on the CRFs (for example Medical history), for the HIV exposure status.

Please adjust
