

Motheo - Feature #6308

Report for QA/generate queries: eligibility form

19/08/2022 13:20 - Shahin Lockman

Status:	Closed	Start date:	19/08/2022
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
<p>If any eligibility criteria not met, then require that eligibility form be stopped / no enrollment (move to production)</p> <p>Mother has HIV-positive status (in eligibility checklist): response to questions "Maternal HIV Testing History and Antiretroviral History" = yes, in enrolment form</p> <p>Mother has documented history of treatment with EFV/TDF/3TC or EFV/TDF/FTC or while pregnant with the child who will be enrolled into Motheo (in eligibility): cross-check with "ART history" question in maternal enrolment form. EFV/TDF/FTC or EFV/TDF/3TC or EFV/TRU or TRU/EFV should be listed as one of the first, second, or third regimens taking during the pregnancy (or a combination of these)</p> <p>Same thing for DTG. If DTG-exposed in eligibility then cross-check with "ART history" question in maternal enrolment form. TDF/FTC/DTG (or TRU/DTG or TRU/Dolutegravir) or TDF/3TC/DTG (or TLD or DLT or TDF/3TC/Dolutegravir) should be listed as one of the first, second, or third regimens taking during the pregnancy (or a combination of these)</p> <p>Report to ensure no participants took both an EFV and a DTG regimen in that pregnancy</p> <p>"Is the child HIV-exposed?" in eligibility: cross-check with enrolment form that maternal HIV test/status is positive</p>
