Bhp085:-TshiloDikotla - Bug #6322
Archiving password not encrypting all archived documents

24/08/2022 14:42 - Samuel Wilson Kgole

Status:	New		**Start date:**	24/08/2022
Priority:	Urgent		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:			**Spent time:**	0.00 hour

Description

1. Only ID is encrypted and the rest of documents archived are not.
I have attached screenshot sent on Skype before about this to be action-ed.

2. Some files after saving takes us to PIDs list-board. We have done the majority of archiving almost binders but still need to be fixed.
