Target version:		Spent time:	0.00 hour

Description

visits that are there on local host, not on central server as follows from Mpho's mac
1-8,2-6, 3-4 and 4-2. so far while reviewing these pts with Mpho, their V3000 showed was not available on live server, and also on local host. Mpho needed to complete visit forms in order to activate and see the completed V3000 forms. this continues to be a concern, and takes us back and forth in confirming if visits are complete or not.
