Target version:		Spent time:	0.00 hour
Description			
<p>Fix data for Screening Log</p> <p>Records 490 & 498 to accept the sample collection date for SARS-Cov-2. The same dates are acceptable at Enrolment arm for the same records but in the screening log, the dates seem to appear outside the 18month window period.</p> <p>Also move all the discussed changes to the live server.</p> <p>Delete the 1 month telephone follow up call from the study.</p> <p>Delete the 12 month telephone follow up call from the study</p> <p>Delete the "3month" telephone follow up call and leave the "3 months' visit - we have moved all the data that was in the "3month' visit to "3 months".</p>
