#### Description

#### Issue

In the Flourish Caregiver > Ultrasound Form csv export there is a variable for `childpid` which corresponds to "Associated Child Identifier:" field in the CRF on the EDC.

For eight records (eight unique matpids), the value for childpid value for matpid.

#### Python code that should replicate the problem:

```
# assuming `ultrasound_df` is a pandas dataframe with the raw, ultrasound form data

ultrasound_df = pd.read_csv("PATH_TO_CSV_EXPORT")

ultrasound_issue_records = ultrasound_df.copy()[ultrasound_df["matpid"] == ultrasound_df["childpid"]]

print(ultrasound_issue_records)
```

#### Attachments:

8 records from ultrasound form data where matpid childpid

#### !!Important!!

Please confirm with kate, debbie, and sara directly that this `childpid` field is auto-populating with childpid and is not being manually entered

#### History

##### #1 - 24/06/2024 11:46 - Ame Diphoko

- Due date set to 24/06/2024

- Assignee set to Ame Diphoko

- Status changed from New to Resolved

##### #3 - 26/06/2024 18:42 - Debbie Bitran

Pulled UltraSound csv from test server.

All values/records were FALSE for `childpid == matpid`.

Issue resolved and can be closed.

Please close issue I cannot alter the status on the ticket form.

thanks so much!
